RM

SPARES LIST

Includes:

**RMA, RME,
RMB, RMF, RMC, RMD,
PATHFINDER and 2.6**

Date of Issue: May 2016

Notes :

This edition of the Riley Motor Club RM, Pathfinder & 2.6 Spares Catalogue represents all items that are available to members at the time this list was produced – 1st May 2016. Riley Motor Club spares are sold only to members and are covered by the Club's worldwide product liability insurance.

Some of the items listed exist as single or second-hand examples, and as such, once sold it may be impossible to obtain further examples. There may be a very few items listed which state that the item is unobtainable at a particular date or that do not have a price listed against them – they are not available at the time this list was published, but we have continued to list them hoping to source further supplies. Please ask us, as we may have obtained further stock in the meantime.

If you cannot find the part you require in our list, please ask, as we may be able to acquire the part for you specially, or know of someone that can help you.

When ordering items, you may use an order form, e-mail or telephone (01926-770606) whichever you prefer.

When ordering items by e-mail, please include the Part Number and Description and tell us your Membership Number and the model and year of your car. We will contact you by e-mail to tell you which parts we are able to supply and any that are out of stock. We will also tell you the cost of post and packing and the total value of your order, so that you can arrange for payment.

We accept payment by cheque (made out to Riley Motor Club Spares Ltd.) or by credit or debit card (not American Express) to the address and telephone number at the bottom of this page. If you pay by cheque and we have not dealt with you previously, we may choose to let you cheque clear through the banking system before sending your order.

We are happy to supply overseas members with any of the parts in our catalogue, but please remember that overseas shipping costs can be very high not only because of the weight of items, but also their size eg. a 500gm trim cost 26 GBP to send within the EU because it was over 600mm long. Outside of Europe we have to list the contents of each parcel complete with value and weight, which can mean that overseas members also have to pay import duty in their own country.

If you find that you have ordered a part in error, we are happy for you to return it to us for credit, so long as it has not been fitted to a car - it must be clean and in perfect condition.

We can have panels made to order but in most cases will need a pattern to work from - it doesn't matter if it is dented or rusted, so long as we can tell what size and shape the finished article needs to be. Remember, the carriage charge for panels is likely to be a minimum of £16 to a UK address as larger parts have to be sent by carrier, being too big for Royal Mail.

As updated versions of this list become available, you will be able to download them from the Riley Motor Club website. If you do not have a computer of your own, your local library should be able to download and print a copy for you, or failing that, please contact the address below and we can arrange for a printed copy to be made available.
