

Foreword

Congratulations! Having this book in front of you, means you are the proud owner of a Saker. Whether it is the RapX, GT, Sniper or the Sprint, driving these cars, going out on the race track, will give you the thrills you are looking for.

Sakers are competitive race cars that are affordable and give great fun. Our vision is that the after sales is a crucial part of this. That is why we offer you this catalogue, to be able to react adequately on maintenance and unexpected damages to your race car.

Skip the hassle, save your energy for racing!

This book contains every Saker part, from body parts to safety harnesses and from wheels to engine parts.

Enjoy your Saker!
