

UNLEASH YOUR INNER
BEAST *ALPHA*

Race-Inspired Instrument Cluster

A programmable dash displays all the critical information for the driver at a glance. Shift lights and shift points are pre programmed to tell the driver when to shift for maximum engine horsepower and torque bands.

Sounds that Stir Emotions

Uniquely positioned dual exhaust tips provide a muscular and exhilarating exhaust note that can be heard for miles.

Carbon Fiber Construction

A composite material used in aerospace and Formula 1 racing, carbon fiber construction allows Beast to be one of the lightest sports cars in the world, and is critical to Beast's handling and race car driving dynamics. Beast Alpha's body is made entirely of carbon fiber.

Close Ratio 6-Speed Manual

A close ratio 6-speed manual transmission provides accurate gear shifts and allows the driver to be fully involved in the driving experience.

Sidewinder Doors

Trademark SideWinder doors provide a unique experience unlike any other. Even more available room when entering and exiting, and a design that's sure to turn some heads in the process.

Purpose Built Seats

Ergonomically designed seats with just the right amount of padding and optional carbon fiber fitments provide maximum comfort for hours of driving.

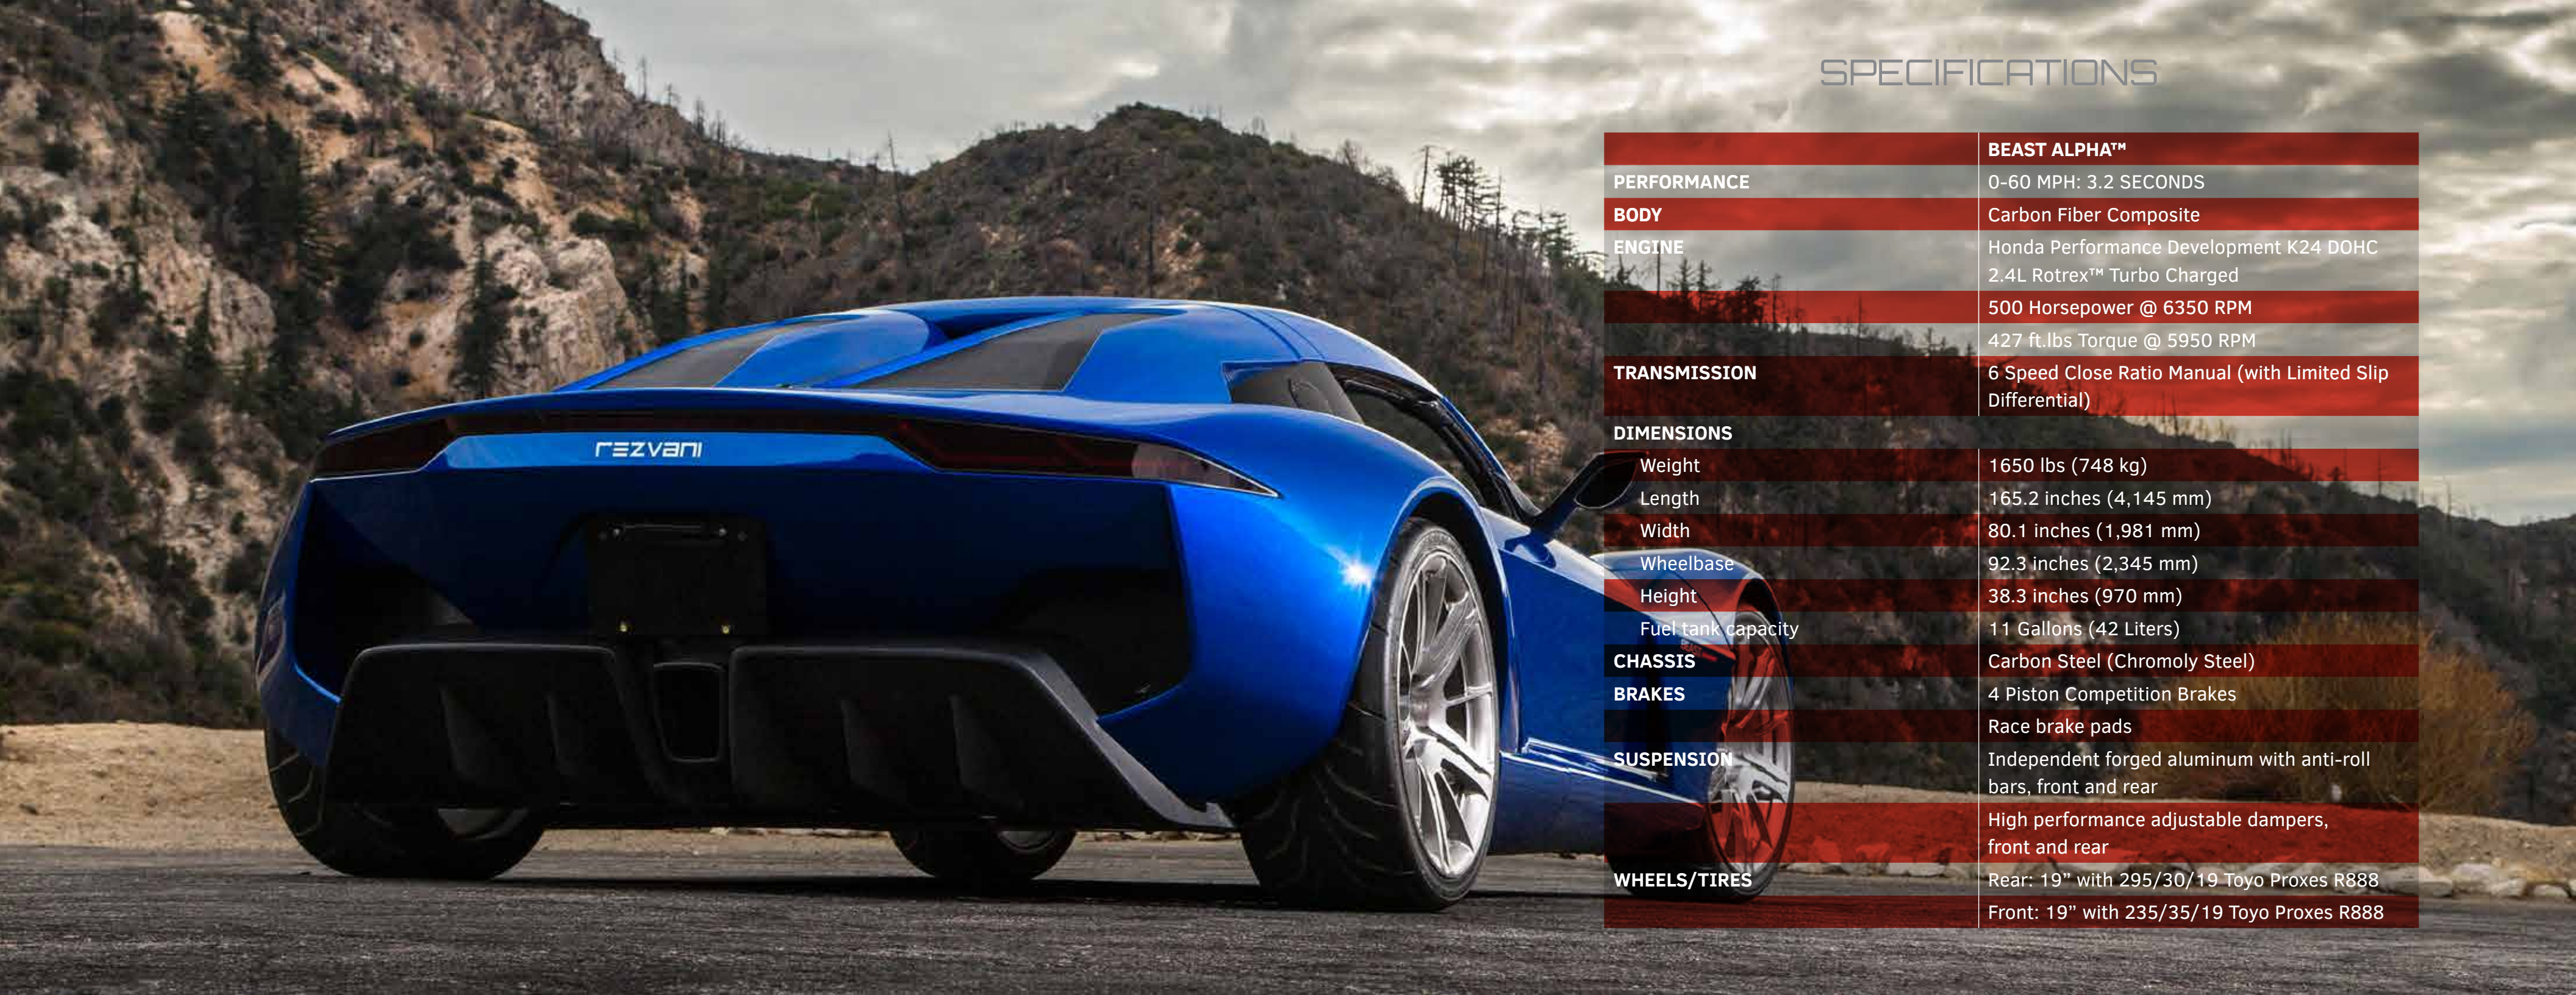

A Powerful Heart

At its core sits a reliable and powerful 2.4-liter 500 HP Rezvani built racing engine, and given an innovative and efficient turbocharger. Rezvani builds the engine from the ground up. The results are astonishing performance — Beast is capable of 0-60 mph in just 3.2 seconds, giving drivers the ultimate thrill. The engine also allows for a low cost of ownership and service.

Removable Hard-Top

With a removable targa-style top, the Beast Alpha allows drivers to experience open-air driving pleasure without having to sacrifice usability.

SPECIFICATIONS

	BEAST ALPHA™
PERFORMANCE	0-60 MPH: 3.2 SECONDS
BODY	Carbon Fiber Composite
ENGINE	Honda Performance Development K24 DOHC 2.4L Rotrex™ Turbo Charged
	500 Horsepower @ 6350 RPM
	427 ft.lbs Torque @ 5950 RPM
TRANSMISSION	6 Speed Close Ratio Manual (with Limited Slip Differential)
DIMENSIONS	
Weight	1650 lbs (748 kg)
Length	165.2 inches (4,145 mm)
Width	80.1 inches (1,981 mm)
Wheelbase	92.3 inches (2,345 mm)
Height	38.3 inches (970 mm)
Fuel tank capacity	11 Gallons (42 Liters)
CHASSIS	Carbon Steel (Chromoly Steel)
BRAKES	4 Piston Competition Brakes
	Race brake pads
SUSPENSION	Independent forged aluminum with anti-roll bars, front and rear
	High performance adjustable dampers, front and rear
WHEELS/TIRES	Rear: 19" with 295/30/19 Toyo Proxes R888
	Front: 19" with 235/35/19 Toyo Proxes R888
